# JOE LANDSCAPING SERVICE LLC

2090 N Broad St, Meriden, CT 06450 · registered 2026-11-04 · CT registry 3545159

**0**/100
ABSENT

**Coverage** 0 of 12 surfaces carry the name at or near the registered address (OpenStreetMap not reached).
**Own site** tedchacpa.com serves a placeholder page, with no number on it.
**Map data** OpenStreetMap not reached today.
**Consequence** in Meriden the competitor is found first.

Score out of 100: coverage 0, phone 0, town name 0, markup 0, own name in the site title 0.

## FINDINGS, WORST FIRST

1. tedchacpa.com serves a placeholder page, not a site: tedchacpa.com/lander parking page, served from a one line redirect
2. Absent from 11 of 11 directories checked, including Google Business Profile, Bing Places, Apple Maps. OpenStreetMap was not reached.
3. No phone number anywhere on tedchacpa.com, so a caller has to leave and find one.

## THE RECORD TO PUBLISH, IN THIS ORDER

```
JOE LANDSCAPING SERVICE LLC
2090 N Broad St
Meriden, CT 06450
phone: add one that answers in trading hours
```

## DIRECTORY COVERAGE, EVERY ONE CHECKED ON 2026-11-08

| SURFACE | STATE | WHERE CHECKED |
|---|---|---|
| Google Business Profile | no record | google.com/maps, checked 2026-11-08 |
| Bing Places | no record | bing.com/maps, checked 2026-11-08 |
| Apple Maps | no record | maps.apple.com, checked 2026-11-08 |
| Facebook | no record | facebook.com, checked 2026-11-08 |
| Instagram | no record | instagram.com, checked 2026-11-08 |

| MapQuest | no record | mapquest.com, checked 2026-11-08 |
| OpenStreetMap | not reached | not reached today |
| Hotfrog | no record | hotfrog.com, checked 2026-11-08 |

## THE NEXT 30 DAYS, IN ORDER

1. Claim the Google Business Profile at 2090 N Broad St, Meriden and keep the hours current. This is the one that feeds Apple Maps and most voice search.
2. Publish the record above, unchanged, on the site footer, the Google profile, Bing Places and Facebook. Same punctuation everywhere, or the mismatch becomes the finding.
3. Add LocalBusiness markup to the site root so directories stop reading an empty record.
4. Post the address to OpenStreetMap, then re-check all 12 surfaces in 30 days. Hotfrog and OpenStreetMap are the slow ones.

Method: each surface queried against the registered name, street and town on the audit date, and the firm's own homepage read for phone, town and LocalBusiness markup. OpenStreetMap queried by name and address and, where that misses, by postcode. A listing counts as present only where the surface returned the name at or near the registered address. No record means checked and not returned. The registry record is the state filing; the audit does not alter it.
